

The 4th Asia Telemedicine Symposium

- Meet Face-to Face -

Date : 2010.12.17(Fri)-18(Sat)

Venue : Hanyang University, Seoul, Korea
HIT(Human Institute of Technology),

The symposium aims to systematically spread the new telemedicine system which utilizes high-level IT technology. This system is of great use to expose young doctors to new medical knowledge and to demonstrate the advanced skills with ease over the geographical distance. But this remote communication is only made possible by the collaboration between medical people and engineering staff. Although we meet frequently over the network, it is essential for all of us to meet regularly face-to-face to introduce our activities and discuss our plans for the next year. Through the symposium, participants enjoy deepening their friendship across their specialties and beyond nationalities in a comfortable and exciting city of Seoul.

Host :

Hanyang University

Co-Hosts :

Kyushu University Hospital Telemedicine Development Center of Asia (TEMDEC),
Japan Society for the Promotion of Science (JSPS) "Core University Program",
JSPS "China-Japan Medical Exchange Project", "Asian Core Program",
and "Grant-in-Aid for Scientific Research"

Sponsors and Supporters :

APAN-Japan, Kyushu University Research Institute for Information Technology, Kyushu GigaPOP(QGPOP), Kyushu University Hospital Dept of Medical Informatics, Division of International Medical Relations, Johnson & Johnson K.K., Olympus Medical Systems Corp,
