

Fuyu Tamanoi, PhD

Professor and Vice Chair, Department of Microbiology,
Immunology &
Molecular Genetics

Director, Signal Transduction Program Area, Jonsson
Comprehensive Cancer Center

University of California, Los Angeles

Fuyu Tamanoi is a cancer biologist who has served on the UCLA School of Medicine and UCLA College faculty since he joined the Department of Microbiology, Immunology & Molecular Genetics in 1993. He became a full professor in 1997. Since 1996, he has been a Director of Signal Transduction Program Area at the Jonsson Comprehensive Cancer Center. He is the Co-PI of the NanoMachine Center for Targeted Delivery and On-Demand Release at the California NanoSystems Institute. From 1985 to 1993, he was an Assistant Professor and then Associate Professor at the University of Chicago, where he initiated studies on signal transduction and the Ras family proteins. His laboratory research centers on signal transduction and signal transduction inhibitors. He is currently exploring ways to deliver signal transduction inhibitors using nanoparticles.
