

Preparation schedule for teleconference on Endoscopy

ver 1.4

Demonstration of Endoscopic teleconference at APAN-HK

Date: Feb 25 (Fri) 16:00-17:30 Hong Kong time (MY/SG)

(TH 15:00-16:30, JP/KR 17:00-18:30, AU 19:00-20:30)

Topics: "Endoscopy Case Teleconference"

Connecting stations:

1. Hong Kong Convention and Exhibition Centre (HKCEC), HK, China

Chairpersons: Seo DW, Lau J

Local & AV engineers: Torata, Antoku, Chakaphan, Chiang

Network engineer: Okamura

2. Chinese U Hong Kong, HK, China

Moderators: Phillip Chiu

Local & AV engineer: Edmond

Network engineer: Che-Hoo Cheng/HARNET

Case presenter: Anthony Teoh

Case: elderly lady with esophageal perforation

→ treated with covered SEMS

3. University of Malaya, Kuala Lumpur, Malaysia

Moderators: Goh KL, Omar S

Local & AV engineers: Yoo SN

Network engineers: Kamal, Liana/MYREN

Case presenter: Ho SH

Case: Klatskin tumor, received peroral cholangioscopy

Discussion points: feasibility, advantages & risks

4. Chulalongkorn University Hospital, Bangkok, Thailand

Moderator: Rungsun R

Local & AV engineers: Chakaphan, Pornarong Chotiwan

Network engineer: Panjai/Uninet

Case presenter: Phonthep Angsuwatcharakon

Case: M/73 h/o HCC associated with HBV, CBD stone c hilar stricture

Discussion points: nature of stricture, choices for investigation & Mx

5. Konkuk University Hospital, Seoul, Korea

Moderator: Shim CS

Local & AV engineers: Cho SC, Han SY

Network engineers: SG Kim/NIA

Case presenter: Sung Noh Hong

Case: unresectable duodenal lymphangioma presented with IDA & ongoing GI bleeding, combined with sclerosing mesenteritis

Discussion points: further Mx after failed APC and other medical tx

6. National University of Singapore, Singapore, Singapore

Moderators: Koh Christopher

Local & AV engineer: Jummain

Network engineer: Frances/SingAREN

Case presenter: Alsadadi Maitham (fellow)

Case: F/55 small signet ring cell ca of the stomach

Discussion point: imaging feature & management

7. Westmead Hospital, Sydney, Australia

Remote discussant & commentator : Bourke M

Local & AV engineers: Munro G

Network engineers: Brett, Rebbechi/AARNET

Program

16:00-16:05 (TH 15:00-15:05, JP/KR 17:00-17:05, AU 19:00-19:05)

Opening remarks/Dr Seo DW

16:05-16:10 (TH 15:05-15:10, JP/KR 17:05-17:10, AU 19:05-19:10)

Greetings from each station

16:10-17:20 (TH 15:10-16:20, JP/KR 17:10-18:20, AU 19:10-20:20)

Case presentations and/or mini-reviews:

17:20-17:25 (TH 16:20-16:25, JP/KR 18:20-18:25, AU 20:20-20:25)

Comments from each station

17:25-17:30 (TH 16:25-16:30, JP/KR 18:25-18:30, AU 20:25-20:30)

Closing remarks/Dr Lau J

Preparations:

1. Endoscopy teleconference, connecting multiple stations.
2. Network configuration will be illustrated and announced later by Prof Okamura.
 - We use one line of DVTS, whose bandwidth is about 30Mbps.
 - Images from multiple stations are controlled by Quatro, located at Kyushu U CC.
 - NTSC camera or PAL/NTSC converter is necessary in Malaysia, Australia, Thailand, Singapore, and Hong Kong.
 - Prepare flat monitors at each station for better quality if available.
