sound system local.

Please see if allowing presenters some time before start of the teleconference to trial run the presentation with sound testing and uploading of audiovisuals would help in smooth running of the teleconference. Good time keeping Nice presentations
 Need more time for our engineer to adjust and correct sound system in advance.
 During the session, connections to the Vidyo from NCCHD in Japan were lost four times suddenly. However, reconnections were smooth. I don't know the reason of disconnection, but Is the time connectable to Vidyo limited in configuration?
