## Summary

### ( 1 ) About the resolution of image (Select one.)

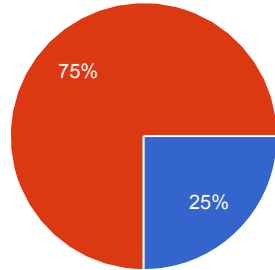

Very good	2	25%
Good	5	62.5%
Poor	1	12.5%
Very poor	0	0%

### ( 2 ) About the image movement (Select one.)

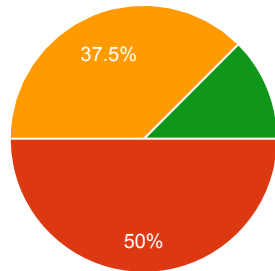

Very smooth	0	0%
Smooth	6	75%
Slow	2	25%
Very slow	0	0%

**( 3 ) About the delay of the image (Select one.)**

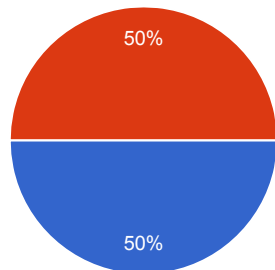

Very small	<b>2</b>	25%
Small	<b>6</b>	75%
Big	<b>0</b>	0%
Very big	<b>0</b>	0%

**( 4 ) About the quality of sound (Select one.)**

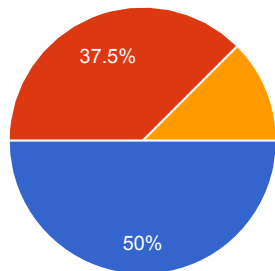

Very good	<b>0</b>	0%
Good	<b>4</b>	50%
Poor	<b>3</b>	37.5%
Very poor	<b>1</b>	12.5%

**( 5 ) About the preparations (Select one.)**

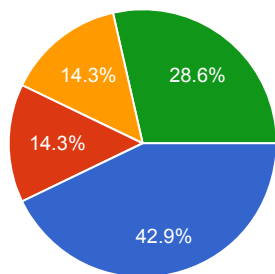

Very easy	4	50%
Easy	4	50%
Time-consuming	0	0%
Very time-consuming	0	0%

**( 6 ) About the program (Select one.)**

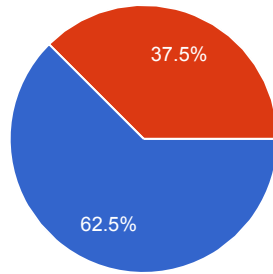

Very good	4	50%
Good	3	37.5%
Poor	1	12.5%
Very poor	0	0%

**( 7 ) Is this system better than DVTS? (Select one.)**

This system is better	3	42.9%
Similar	1	14.3%
DVTS is better	1	14.3%
Do not know	2	28.6%

**( 8 ) Would you like to use this system for your own activities? (Select one)**

Response	Count	Percentage
Probably yes	3	37.5%
Probably no	0	0%
No	0	0%

**( 9 ) If you found any problems in teleconference, please write any comments you may have.**

Sound and image quality need improve: 1. Sometime, Sound have noise 2. Image have interrupt

1) If possible, I want the host controller to switch microphone because it is forgetful to make it off. 2) In some sites, voice of speakers and questioners are distorted. I think they were because of poor setting of microphone or speaker. 3) In last presentation from Philippines, about the reason why the slide was not in a full-screen and not progressed, I think the sharing setting of Vidyo desktop was wrong. There is difference in behavior between sharing "Powerpoint" and "Display itself".

Some presenters sent movie from VidyoDesktop .And because of it, movie framerate is poor. Need to send presentation files from HongKong U or prohibit presenters not to use movie for their slide. It seems that Philippine doesn't know how to send presentation. I suspect it's because they shared not their "PC screen" but "powerpoint apprication" from VidyoDesktop. Some participants forgot to mute their mic. It's ok, but Vidyo administrator should manage the audio (to mute some participants who is making noise etc...). And also I'm sorry not to cooperate you, nevertheless I'm a venue engineer of this session... Shunta

Echo from some station, found to be heavy. Would you mind for giving information about the content of next meeting about two months earlier so that we can prepare our presentation more proper. Thank you very much

timing and sizing with power point presentation reducing background noise and reverberation Images very clear

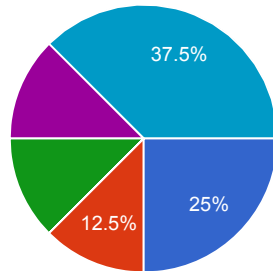

My suggestions for the future: 1. More time for each speaker especially those with videos to show. 2. More time for Q&A, as the technical glitches make it more time consuming than face to face Q&A. 3. A time keeper (separate from the chairperson). 4. A light system (perhaps green-orange-red) at the host center to indicate timing to

the remote speakers. 5. More publicity for the APAN fetus sessions in future in order to increase the number of participants / audience, thus widening the reach and spread of knowledge.

The University of the Philippines failed to upload the Powerpoint file in slide show mode

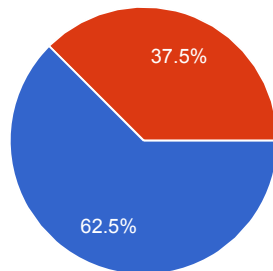

**( 10 ) Which is your station?**

University of Malaya (Main Site)	<b>2</b>	25%
Bach Mai Hospital	<b>1</b>	12.5%
Mahidol University Siriraj Hospital	<b>0</b>	0%
University Research Center, Nihon University	<b>1</b>	12.5%
Sebelas Maret University Dr. Moewardi Hospital Solo	<b>1</b>	12.5%
The University of Hong Kong	<b>3</b>	37.5%
Option 8	<b>0</b>	0%
Other	<b>0</b>	0%

**( 11 ) What is your occupation?**

Medical doctor	<b>5</b>	62.5%
Engineer	<b>3</b>	37.5%
Others	<b>0</b>	0%
